Message from the Chair of Pacifica National Board Re: Sale of the KPFA Studio Building in Los Angeles.

Dear friends and affiliates,

I am writing to update you on a noteworthy event at Pacifica Foundation. Pacifica is selling the building we own in Los Angeles that houses Pacifica-owned [KPFA](#) Community Radio, because of the poor financial situation in which we find ourselves. We are an asset-rich and cash-poor nonprofit and have been running deficits for years. Declining membership and the consequent decline in revenue are the cause. Operating at a loss can't be sustained over time.

KPFA is also the station among the five Pacifica owned stations that has suffered the deepest losses most recently. Those losses have been covered by Pacifica's other stations and the affiliate Network Unit. We have appreciated the role that income from the affiliate network has played in helping us through hard times in the past few years. The six units of Pacifica that operate our Pacifica-owned stations and Affiliates Network are meant to be self-sustaining. The Pacifica Radio Archives unit is supported by the

other units.
