The First Network Mural is Complete

Pacifica Network looks good in the spotlight. Here is our first collaboration of stickers properly filled out. Thanks again to everybody sending in their logo! There's more space to fill so if you have a sticker to share, we would love to include it.

Stay tuned for mural #2 in June...
May Round-Table Recording Available

In May, Pacifica Network's manager Ursula Ruedenberg reprised her presentation on *Fixing Mayhem: Tools for When Things Go Terribly Wrong for the Team*.

“If you are a manager, you have witnessed negative behavior, often for mysterious reasons. “Fixing Mayhem” is a presentation to help you face these counter-intuitive scenarios and the damage they do. The ideas presented are based on original concepts developed by psychologist Peyton Wimmer. They look at the hidden, underlying social and psychological reasons and offer tools to address them at that level.”

Look for our invite this month for June's presentation. Retired Manager Joseph Orozco, of KIDE (Hoopa, CA), will talk about consensus building.
