

March 2024

**Pacifica Network Welcomes
WMTN: The Student Powered
Station in Sewanee, TN**

[WMTN-LP](#) is a radio station at St.
Andrew's Sewanee School in

**Congratulations, KUGS:
Bridging Community &
Bringing the Music for 50 Years**

Tennessee, run by students but catering to both students and the entire community on the mountain. It started 20 years ago, beginning in a hangout room on campus, akin to a closet. Now, however, they have both received many nominations and won national awards, most recently the Pacifica Network video contest and their nominations at the Intercollegiate Broadcasting System. WMTN plays an important role connecting their community and providing students a voice and space to practice advocating for themselves.

[Meet KUGS](#): a radio station at Western Washington University in Bellingham. They focus on music and bridging the gap between university students and community members, and have been doing so for 50 years, first going on air in January 1974.

KUGS' 50th anniversary was officially last winter, though they plan to continue events and celebrations all year, including programming and anniversary merchandise.

Jamie Hoover is the current staff manager of the radio, which comprises around 80 members, most of whom are student volunteers, with some paid jobs. Jamie talked with us about the 50th anniversary, upcoming plans, and the role KUGS has in the community and local music scene, recording local bands.
